MARCH 1

OUR 1933 WHOLESALE TRADE LIST

Serving Pet Shops, Seed Stores, Florists and Dept. Stores for years gives us a fair knowledge of their business condition. Prices in this catalog are as low as can possibly be quoted without disregarding the high quality which has built up our business. Some of the largest Pet Shops, Seed Stores, etc., have done business with us continually since we started business in 1920. Our aim is always to furnish you with the best quality merchandise at lower prices.

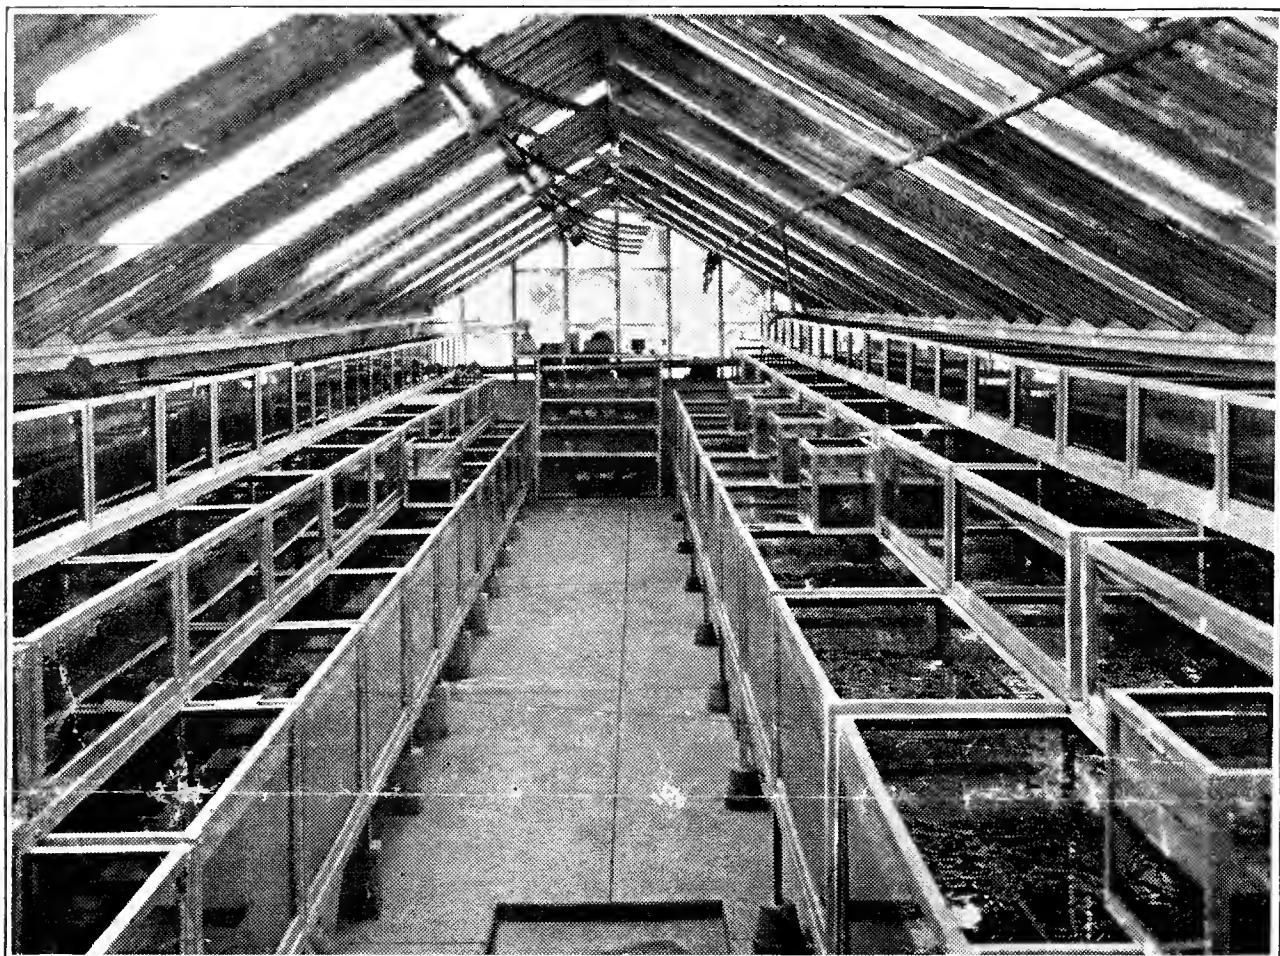

Today more than ever the shrewd buyer goes shopping, for if he can slice off a dollar here and there without undermining the quality of goods purchased, he has made money

buying right. Before you place your order for Fishfood, Tropical Fish, Snails, Newts, Fancy Goldfish, Fishmoss, and Aquatics, Water Lilies, Aquariums and their accessories, Aquarium Heaters, Ornaments, Castles, etc., check up on our prices and note the great savings we offer to you. There is a reason why we have built up the largest business in our field. We try to give good service and treat you right and the many repeat orders we get prove that our policies of good business make friends. We thank you very much for the support you have given us in the past and we shall merit your continued patronage, by further improving quality at lower prices combined with a service that must be more than satisfactory.

RETAIL CATALOGS

We have in the past always mailed a retail catalog to each dealer. This year we are discontinuing this practice. As we are getting more and more into the wholesale business, we are not mailing out any free catalogs as they are too expensive. This large catalog containing over 20 pages in full color, illustrating over 90 tropical fish in full colors, is

now sold for 50c per copy. Also retail customers desiring this catalog must pay this price. This catalog is printed in the form of a book containing much valuable information covering 64 pages. The art and engraving work in this book cost us close to \$10,000.00 so you can readily understand that we cannot give them away gratis.

View of one of our many breeding houses at our hatchery located 12 miles west of St. Louis. You are cordially invited to visit our hatchery which is located on a forty acre tract of land one mile north and about one mile

west of the St. Louis Airport. Over 80 ponds outside present a mass of blossoms of various colors of water lilies during the summer months. Our hatchery is closed Sundays and Holidays.

TERMS OF SALE

Our prices are based on strictly cash sales. We have not added a percentage to cover loss on account of bad debts. In other words you are not paying the other fellow's bills. That's why we can and do make you a better price on American Bred Tropicals and all other goods which we manufacture. We guarantee safe

arrival of live stock, however, we reserve the right to refuse replacements, should the loss be the fault of the carrier. You can always expect a square deal when dealing with Beldt.

In case of loss or shipments arriving in bad order we cannot entertain any claims, unless bad order report is secured from the carriers. We do not guarantee Parcel Post shipments.

SPECIAL OFFER
